

## CARPET CARE TIPS

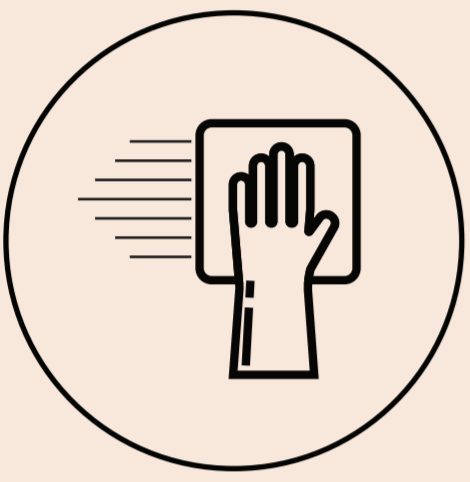

Protect your carpet from direct sunlight and humidity.

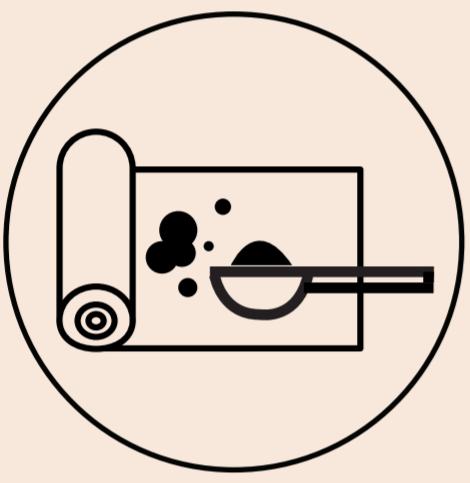

Clean your carpet with a vacuum cleaner.

Treat stains immediately.

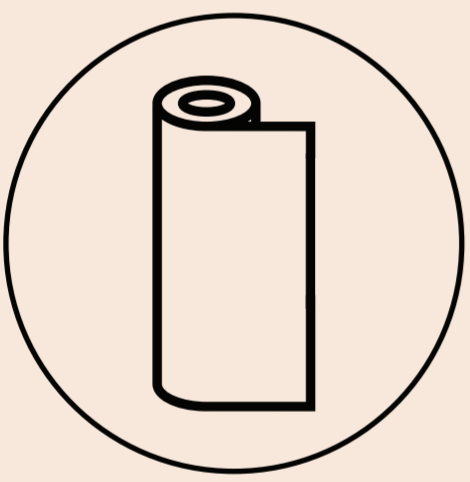

Use a paper towel to wipe up any liquid stains on your carpet.

Use a spoon to remove solid stains spilled on your carpet.

Ask for professional assistance for stains such as alcohol, tea, chemicals.

Do not fold your carpet, roll it to store.

Brush the traces of objects on your carpet with a soft brush to remove them.

Test the cleaner on a small area of your carpet first

Use a natural carpet shampoo free of heavy chemicals and bleach.

Cut the loops from the carpet surface instead of pulling them.
